

Gift Card Scams

Video Transcript

When's the last time you bought a gift card? They're great for birthdays, holidays, and thank yous, but scammers love them too and for all the wrong reasons. Someone asked you to send them a gift card as a payment, it's probably a scam. They'll press you to act fast, tell the executor to buy the card, and ask for proof like photos or codes.

Stop right there. Slow down, trust your gut, and verify before you act. Remember, gift cards are for gifting, not paying. Protect your wallet and share with your friends and family to keep them safe too.
